PERSONAL PROJECTS

PharmEasy App - Clone

- PharmEasy is a consumer healthcare super app that provides with medicines and products widely.
- Developed along with a team of 5 members in one week
- We mainly worked on the Front-end part and made the entire flow of website from homepage to cart page
- My task in this collaborative project was to build the homepage all carousel sliders, navbar and the footer
- Tech stack: JavaScript, HTML, CSS, Git

Freshly App - Clone

- Freshly is a healthy food app where we can able to order via online.
- Developed this project as an individual in one week.
- I have built the entire flow of website from the signup page to the order page. Here I have formatted all data appeared on the cart page where you can able to select your favorite dish and then it proceeds to particular product's detail page.
- Tech stack: JavaScript, HTML, CSS, ES6, Git

Tripoto App - Clone

- Tripoto is a social travel platform to share and discover travel experiences, stories, community, tourism guides, hotels, holidays, getaways and attractions
- Developed this project as an individual in a duration of 5 days.
- Here I have built the entire flow of website where you can select the place and classify the details of the tourist spot in a description page. And I have equipped all the data's of each product in a json-file where it dispatched when it needed.
- Tech stack: JavaScript, HTML, CSS, ES6, React, Redux, Git
